This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PROVINCIAL TABLES.

EXPLANATORY NOTE.

TABLE No. 1.—The figures in the Imperial Tables were compiled on the basis of the territorial divisions into which the Province is divided and took no account of the arbitrary divisions or Political Agencies into which the Province is apportioned for the purposes of administrative control. Provincial Table No. 1 has, therefore, been compiled to enable the area, population, etc., of each Political Agency and its constituent portions to be ascertained at a glance.

TABLE No. 2.—This table is subsidiary to Imperial Table XIII. It contains details, arranged alphabetically, of all the groups belonging to the indigenous tribes of the Province which were recorded at the time of the Census. Column 2 of the Table relates to the locality in which each group is to be found. The number of indigenous tribesmen enumerated in Regular Areas has not been included in the Table but has been exhibited in footnotes. In order to render the classification easily intelligible the various tribal groups have been printed in different kinds of type.

TABLE No. 3.—The distribution of each of the indigenous tribes by Districts and Tahsils is shown in this Table. It has been restricted to the Districts of Chágai, Quetta-Pishin, Thal-Chotiali and Zhob. Sufficient material was not available for the preparation of a similar table for Kalat and the Bolan. In the case of Las Bela and the Marri and Bugti country, the figures would have been more or less a repetition of those already appearing in Provincial Table No. 2, and they have, therefore, been omitted. The aggregate figures of each District have been placed first and those for each Tahsil afterwards.

As with Provincial Table No. 2 different type has been used in the case of the race, the tribe and each of its sub-divisions.

TABLE No. 5.—This Table is subsidiary to Imperial Table No. XV. Part A contains for Administered Districts the amalgamated figures of Parts 2 and 3 of Imperial Table No. XV, and shows, therefore, the District totals. Part B shows occupations by Towns.
